General

Power Supply **Type:**
RSP-750-48 **Model Number:**

Physical & Mechanical Properties

9.84 x 5.00 x 1.61 **Dimensions (inches):**

250 x 127 x 41

Dimensions (mm):

Electrical

15.7

Output Current (A):

Hardware & Interface Connectivity

48 DC

Output Voltage (V):

90 - 264 AC

Input Voltage (V):

Environmental & Durability Factors

-30 to +70

Operating Temperature (°C):

Regulatory Compliance

[Compliant](#)

RoHS 2015:

Certificate of Conformance:

Product Details

- Superior Beam Quality and Power Stability for Improved Process Quality
- Fully Sealed Integrated Package with Built-in RF Power Supply
- Wide Power Range with CW or Pulse Width Modulation Control

Coherent® Diamond C-Series CO₂ Lasers offer reliability with more than 50k operating hours, along with superior beam quality and stability. These lasers are ideal for a wide range of applications from marking and engraving to material processing. Coherent® Diamond C-Series CO₂ Lasers offer a compact option with an integrated RF power supply. Maximum output power ranges from 20 to 40 watts, and can be controlled through pulse width modulation (PWM).

Note: Power supply ([#17-206](#)) and Controller ([#37-079](#)) are required for operation.
