## Product Details

- Swivel Arm for Added Flexibility
- 90° Angle Mounts Connect Horizontal Arms onto Vertical Posts
- Ring Mounts for Increased Versatility
- [Imaging System Bases](#), [Rack and Pinion Focusing Mounts](#), and [Stainless Steel Posts](#) Also Available

Accessories for Imaging Systems are available to increase the versatility of an imaging system. Products in this family include a swivel arm, InfinityMicroscope, 90° angle mount, and ring mounts. The swivel arm adds an axis of rotation to the rack and pinion-focusing mounts. The swivel arm can rotate around a vertical post, and the rack and pinion focus mount can rotate around the 1/4" post attached to the swivel arm. The Infinity microscope mounting adapter is compatible with Rack and Pinion Mount #39-357 and reduces the thru hole diameter to 58mm. The 90° angle mount, offered in Accessories for Imaging Solutions, allows the mounting of posts at 90° in optical systems. Ring mounts are available for attaching light sources, articulating arms, straight posts, or any 1/4-20 accessory to standard mounting hardware.

## Features

90° Angle Mount #39-355 features two 3/4" thru holes at 90° with locking knobs. All Ring Mounts feature 1/4-20 mounting hole, set screw for securing post, or optical component within the inner diameter. Swivel Arm #03-684 features a 0.75" diameter post which accepts rack and pinion focusing mount and allows swivel movement. Infinity Mounting Adapter #39-358 features male and female T-thread to replace 24mm tube section of infinity lens.
