200 x 600mm Sheet of MaxiBlack Film, Low Outgassing Adhesive

A photograph of a metallic, curved, funnel-like structure, possibly a component of a machine or a piece of art, set against a blue background. The structure is made of a shiny, reflective material, likely metal, and has a smooth, polished surface. It is positioned diagonally, with its wide opening at the top left and its narrow end pointing towards the bottom right. The background is a solid, vibrant blue color. The lighting is bright, creating a strong highlight on the upper edge of the structure and casting a soft shadow on the blue surface below it. The overall composition is simple and modern, focusing on the geometric form and reflective properties of the object.

Aktaar Light Absorbent Foil

Model Number: MXB-20X60-3
Operating Temperature (°C): -40 to +150
Dimensions (mm): 200 x 600
Type: Low Outgassing Adhesive
Coating Thickness (µm): 4 - 6
Foil Thickness (µm): 75
Abrasion Resistance: Moderate
Adhesive Thickness (µm): 60
Humidity Resistance: ML-C-48497A
Wavelength Range (µm): 0.3 - 5
Dimensions (cm): 20 x 60
Note: Typical Adhesive Outgassing Performance: 0.85% TML, 0% VCM per ASTM E595-77/84/90

Regulatory Compliance

RoHS 2015: Compliant
Certificate of Conformance: View
Reach 240: Compliant
