Product Downloads

General

Type:
OEM

Compatible Laser Models:
1108, 1108P, 1107, 1107P

Note:
Advanced power supplies include an active filter to reduce current ripple and noise. Additional heat sinking is not required.

Model Number:
L23 Series

Compatible Laser Stock Number:
#62-714, #62-715, #62-716, #62-717

Physical & Mechanical Properties

	Dimensions (inches):
4.25 x 3.30 x 1.20	

Electrical

2.5-25	Output Power (W):
2 (Max. Current Draw)	Input Current (A):

Hardware & Interface Connectivity

1250	Output Voltage (V):
4	Output Current (mA):
High Voltage Alden Connector	Connector:
10-14 DC	Input Voltage (V):

Regulatory Compliance

View	Certificate of Conformance:
----------------------	-----------------------------

Product Details

- Power Options from 0.5 - 22.5mW
- Improved Stability
- Ideal for Interferometry and Metrology Applications
- Random or Linear Polarization Options

Lumentum High Performance Helium-Neon Lasers feature a patented close-cathode design that provides improved thermal and power stability. They also utilize a patented field concentrator design that enables fast turn-on. These Lumentum HeNe lasers also feature precisely aligned cylindrical housings, with cylindrical laser heads and electrical interconnect systems used to simplify system integration. Lumentum High Performance Helium-Neon Lasers' rugged design is ideal for even the most demanding applications. They are exemplary for use within interferometry and metrology applications.

Note: Please exercise caution when using a user-provided power supply to not exceed the electrical specifications of the laser as this may cause damage and void the warranty. These HeNe lasers comply with 21CFR1040 and IEC 825-1:1993. Lumentum was previously known as JDSU.
