[#62-714](#), [#62-715](#), [#62-716](#), [#62-717](#)

CDRH Delay (3-5 seconds)		Features:
Physical & Mechanical Properties		
4.00 x 1.50 x 1.00		Dimensions (inches):
Electrical		
5		Output Power (W):
2 (Max. Current Draw)		Input Current (A):
Hardware & Interface Connectivity		
1250		Output Voltage (V):
4		Output Current (mA):
High Voltage Alden Connector		Connector:
10-14 DC		Input Voltage (V):
Regulatory Compliance		
View		Certificate of Conformance:

Product Details

- Power Options from 0.5 - 22.5mW
- Improved Stability
- Ideal for Interferometry and Metrology Applications
- Random or Linear Polarization Options

Lumentum High Performance Helium-Neon Lasers feature a patented close-cathode design that provides improved thermal and power stability. They also utilize a patented field concentrator design that enables fast turn-on. These Lumentum HeNe lasers also feature precisely aligned cylindrical housings, with cylindrical laser heads and electrical interconnect systems used to simplify system integration. Lumentum High Performance Helium-Neon Lasers' rugged design is ideal for even the most demanding applications. They are exemplary for use within interferometry and metrology applications.

Note: Please exercise caution when using a user-provided power supply to not exceed the electrical specifications of the laser as this may cause damage and void the warranty. These HeNe lasers comply with 21CFR1040 and IEC 825-1:1993. Lumentum was previously known as JDSU.
